

## DATA SHEET

Lembar data produk

**VWSD 1100 A**  
POMPA CELUP (AIR  
KOTOR)

### Spesification:

|                                             |                                                                                                                |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Device application / Aplikasi               | Sewage Discharge / Pengolahan limbah<br>Farmland irrigation / Irigasi lahan pertanian<br>Drainage / Pengurasan |
| Power / Listrik                             | 1100 Watt / 1.5 HP                                                                                             |
| Inlet / Outlet                              | 2"                                                                                                             |
| Max. Head / Head Maks.                      | 13 m                                                                                                           |
| Max. Flow                                   | 583 l/min ( 35 m <sup>3</sup> /jam )                                                                           |
| Max. Capacity / Kapasitas Maks.             | 583 l/min (on H : 1 m)                                                                                         |
| Fluid rate temperature / Temperatur Cairan  | Up to +35°                                                                                                     |
| Max. ambient temperature / Temperatur Maks. | Up to +40°                                                                                                     |
| Protection / Proteksi.                      | Ip68                                                                                                           |
| Construction Material / Bahan Dasar Pompa   | - Pump Body : Stainless steel<br>- Ceramic shaft                                                               |
| Pump Feature / Fitur Pompa                  | - Thermal protector: single phase<br>- Float switch                                                            |

### Pump Structure
